

Chubb

High quality,  
certified  
cash safe

# Cobra

£4,000 cash protection

For many small retailers and businesses the requirement is to store a low level of cash and valuables (for example £2000 - £4000). Safes such as the Sovereign Elite and Sovereign would exceed their security objectives. The perfect solution would be the Chubb safes Cobra. The safe offers you the ideal combination of efficiency and quality. With its spacious interior, innovative quality features (e.g. 30 minutes document protection) and unrivalled reliability you might be tempted to think there must be a catch somewhere.

But you would be wrong – you really are getting more for your investment!!

## Key Features

\* Projection of handle is 63mm.

## Quality Features

### Testing

Tested and certified by the Loss Prevention Certification Board to standard LPCB 1228.

### Fire Resistance

Offers 30 minutes fire protection for documents. Tested to British standard BS476.

### Manufacture

Manufactured to ISO 9002 accredited quality assured process.

### Locking

The Cobra range is secured by a single, high security, double bitting keylock as standard. The option of a single mechanical or electronic combination lock in lieu of the keylock is available.

### Body and barrier

The entire body has an effective barrier thickness of 65mm. It is made up of an inner and outer body of steel encasing a Chubb safes high density barrier material.

### Door

The door is constructed from a 10mm steel plate with additional protection over the locking cover.

### Boltwork

Moving, 28.5 mm diameter, solid steel bolts on the front edge of the door engage securely into the safe body. Fixed bolts on the rear edge of the door locate behind a solid rebate bar and secure the rear of the door into the body of the safe. The boltwork is further protected by an anti-explosion device to ensure bolts remain firmly in place should an attack on the lock occur.

### Base fixing

A steel bush is welded in the safe base to accept a Chubb-specified high tensile, heavy duty anchor bolt.

### Cash rating

Recommended cash rating for the Cobra is £4000. Approved by the Association of Burglary Insurance Surveyors.

### Jewellery rating

As a general rule, the cash rating is multiplied by a factor of 10 so a Cobra Size 3 with a cash rating of £4000 will allow for storing jewellery worth £40,000 in domestic situations.

## Design Features

### Size

The Cobra is available in five sizes.

### Finish

The safe is finished in a light grey texture. Escutcheons, combination dials, keypad and handle are finished in black.

### Standard Fittings

Comes with fittings of shelf and drawer as standard. Please note, some sizes may not include certain fittings. For example, the Cobra has a shelf in all sizes except size 1 (Please see technical specification overleaf for full details).

### Design

Attractive design with Chubb Safes handle for comfortable and smooth operation.

## Customisation

The Cobra can have a different lock (e.g electronic) to meet your customer requirements. For further details and technical information regarding customisation please feel free to contact Chubb safes or your local authorised dealer. As always, Chubb safes will endeavour to provide a customisation solution which meets your expectations.

Please note: The Cobra is supplied empty. Customisation work available at an extra cost.
